

Data Storage and Retrieval Agreement:

Sequencing Data

After sequencing is completed, the data will be made available to you via the Arrayfiles Server ([\\arrayfiles.princeton.edu/htseq](http://arrayfiles.princeton.edu/htseq)) as a network drive. The data storage policy is the same as that for the HTSEQ website. Please make arrangements to download your data before it is removed.

Please indicate your Name, NetID and sign below acknowledging agreement to these terms.

Array Data

Scanning access will be provided by signup. Array images and data must be immediately transferred to the Arrayfiles Server ([\\arrayfiles.princeton.edu/arraydata/people/NetID](http://arrayfiles.princeton.edu/arraydata/people/NetID)). All images and data older than a week are subject to removal from the scanner computer.

The data will be available on the arrayfiles server for a period of three months. The facility cannot guarantee the availability of any data older than three months. Please make arrangements to download and archive your data prior to the end of the three month period. Data is visible to all arrayfiles users to facilitate collaboration, however data files can only be modified by the owner of the folder.

Please indicate your Name, NetID and sign below acknowledging agreement to these terms.
