

# Searching for the next leaders in Bioinformatics, Genomics, and Comp Bio

## Postdoctoral Opportunities

@ **UCLA**

Choose among labs and faculty  
that are international leaders in

- Bioinformatics & Methods Development
- Human Genomics & Precision Medicine
- Systems Biology & Biosystems Modeling

<https://qcb.ucla.edu/faculty/>

## Join a renowned Postdoctoral Training Program The **UCLA** Collaboratory

- engage in collaborative research and broaden your impact
- develop your teaching and training skills
- focus on your career development to be a leader
- enjoy the Postdoctoral Community of future leaders

<https://qcb.ucla.edu/collaboratory/qcb-postdoctoral-fellows/>

### YOUR NEXT STEPS:

**Path 1:** Apply for a postdoc position to one of the many faculty at UCLA, and then apply to the Collaboratory when you arrive on campus.

or

**Path 2:** Apply directly to the UCLA Collaboratory: we will then help match you to faculty interested in interviewing you for a postdoc position.

We particularly welcome applicants from groups underrepresented in the discipline: Black, LatinX, Native Americans, Women

**UCLA** Institute for Quantitative & Computational Biosciences
